### **CONSOLIDATED WATER CO. LTD. REPORTS FIRST QUARTER OPERATING RESULTS**

#### **GROSS PROFIT GENERATED BY ALL FOUR REPORTING SEGMENTS INCREASED COMPARED WITH THE FIRST QUARTER OF 2016**

**GEORGE TOWN, Grand Cayman, Cayman Islands** (May 10, 2017) -- Consolidated Water Co. Ltd. (NASDAQ Global Select Market: "CWCO") ("the Company"), which develops and operates seawater desalination plants and water distribution systems in areas of the world where naturally occurring supplies of potable water are scarce, today reported its operating results for the first quarter of 2017. The Company will host an investor conference call on Thursday, May 11, 2017 at 11:00 a.m. eastern time (EDT) (see details below) to discuss its operating results and other topics of interest.

#### **First Quarter Operating Results**

Net income attributable to Consolidated Water Co. Ltd. stockholders for 2017 was \$2,631,228 (\$0.18 per share on a fully-diluted basis), as compared to \$2,054,641 (\$0.14 per share on a fully-diluted basis) for 2016. This increase of net income is attributable to higher gross profits generated by all four of our reporting segments.

Total revenues for 2017 increased to \$15,677,106 from \$14,034,772 in 2016 due to higher revenues for the retail, bulk and manufacturing segments. Gross profit for 2017 was \$6,833,568 (44% of total revenues) as compared to \$6,177,031 (44% of total revenues) for 2016 as the gross profit for all four segments increased from 2016 to 2017.

Revenues generated by retail water operations were \$6,476,604 in 2017 as compared to \$5,970,238 in 2016, consistent with the 8% increase in the volume of water sold by the retail segment from 2016 to 2017. The Company attributed this increase in sales volume to severe drought conditions which continued into the first quarter of 2017 in Grand Cayman.

Bulk segment revenues were \$7,690,402 and \$7,265,293 for 2017 and 2016, respectively. The increase in bulk revenues from 2016 to 2017 is primarily attributable to the Company's Bahamas operations, which generated approximately \$444,000 in incremental revenues due to a significant increase in the prices of diesel fuel and electricity from 2016 to 2017, which increased the energy component of bulk water rates in the Bahamas.

Services segment revenues remained relatively consistent at \$130,252 and \$180,712 for 2017 and 2016, respectively.

The Company's manufacturing segment consists of Aerex Industries, Inc. ("Aerex"). The Company acquired its 51% interest in this subsidiary as of February 11, 2016. Consequently, the results of the manufacturing segment for 2017 are not comparable to those reported for 2016, as the 2017 results reflect a full three months of Aerex's operations whereas the 2016 results reflect Aerex's operations for the partial period that began on February 11, 2016 and ended on March 31, 2016. Manufacturing revenues were \$1,379,848 and \$618,529 for 2017 and 2016, respectively.

Retail segment gross profit was \$3,792,318 (59% of retail revenues) and \$3,340,564 (56% of retail revenues) for 2017 and 2016, respectively. The improvement in retail gross profit as a percentage of revenues from 2016 to 2017 is due principally to the increase in the volume of water sold.

Gross profit for the bulk segment was \$2,674,613 and \$2,654,969 for 2017 and 2016, respectively. Gross profit for the bulk segment was not favorably impacted by higher sales since these incremental sales represent energy pass through charges to customers and were offset by approximately equal energy expenses. Gross profit as a percentage of bulk revenues was approximately 35% and 37% for 2017 and 2016, respectively. Energy expense for bulk operations was approximately \$473,000 more in 2017 than in 2016.

Gross profit (loss) for the services segment was \$28,086 and (\$16,563) for 2017 and 2016, respectively. The improvement in the services segment's gross profit from 2016 to 2017 reflects a reduction in employee costs of approximately \$90,000.

Manufacturing segment gross profit was \$338,551 (25% of manufacturing revenues) and \$198,061 (32% of manufacturing revenues) for 2017 and 2016, respectively. Gross profit for 2017 increased in dollars from 2016 due to the incremental revenues.

General and administrative ("G&A") expenses on a consolidated basis were \$4,797,192 and \$4,460,986 for 2017 and 2016, respectively. The increase in consolidated G&A expenses from 2016 to 2017 is primarily attributable to the inclusion of Aerex's G&A expenses for all of 2017 as opposed to the partial period in 2016 that began on February 11, 2016, the date the Company acquired its 51% interest in this subsidiary. Consolidated G&A expenses also increased from 2016 to 2017 due to incremental employee costs for the retail segment of approximately \$75,000 arising from base salary increases.

Other income, net for 2017 was \$403,379, as compared to \$389,557 for 2016. The slight increase in this net component of results of operations reflects an impairment loss recorded for the Company's equity investment in OC-BVI of (\$50,000) in 2016 (an impairment loss for this equity investment was not required in 2017) and an unrealized gain of \$165,000 recorded in 2017 to adjust the net liability for the put/call options arising from the Aerex acquisition to fair value.

### **Management Comments**

"Gross profits generated by all four of our reporting segments increased this past quarter compared with the first quarter of 2016 on higher revenues, and in the case of our services segment, lower costs. We are particularly pleased to report that the trend of increased volume sales in our retail segment that started last year is continuing into 2017 and that our retail sales benefited from an 8% volume sales increase this last quarter compared with the first quarter of 2016, which is consistent with the 12% increase in sales volumes we experienced for the full year of 2016", commented Rick McTaggart, the Company's Chief Executive Officer.

"Earlier this year, the Government of the Cayman Islands passed new legislation which transferred responsibility for water utility regulation from the Water Authority-Cayman to a new independent, multi-sector regulatory office called OFREG. We are very pleased with this development and expect that this major change in the Islands' regulatory framework will facilitate the resolution of our water utility license negotiations which have been underway since mid-2008" continued McTaggart.

"In February we submitted proposals to our customer in Baja California, Mexico requesting an increase to the water tariff to compensate for significant changes in foreign exchange rates, lending rates and certain changes in law which have impacted our 100 million gallon per day desalination plant project in Rosarito, Mexico. Discussions regarding these proposals continue and we remain optimistic that a solution will be found that will allow the project to move forward. We are also working to achieve the various conditions precedent in the APP Contract in order to meet our goal of commencing construction of the project in the third quarter of this year", concluded McTaggart.
