Report on the Financial Statements

We have audited the accompanying balance sheet of Aerex Industries, Inc., as of December 31, 2015, and the related statements of income, retained earnings, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Aerex Industries, Inc. as of December 31, 2015, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Description

Aerex Industries, Inc. ("Aerex"), headquartered in Fort Pierce, Florida, is a manufacturer and installer of complete water treatment systems. Its markets include the United States of America, Bermuda and the Caribbean Islands, South America, China, Japan, the Middle East, and other parts of the world.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results could differ from these estimates.

Cash and Cash Equivalents

Aerex considers all highly-liquid debt instruments purchased with a maturity of six months or less to be cash equivalents. Aerex maintains cash and cash equivalents which may periodically exceed federally insured amounts. Aerex has not experienced any losses in such accounts. Management believes Aerex is not exposed to any significant credit risk related to cash and cash equivalents.

Revenue Recognition

For financial statement purposes, revenue from construction contracts is reported using the percentage-of-completion method. Accordingly, income is recognized in the ratio that costs incurred to date bear to estimated total costs. Contract costs include direct material, labor, subcontract and indirect costs related to contract performances. General and administrative costs are charged to expense as incurred. Provisions for estimated losses on incomplete contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, estimated profitability and final contract settlements may result in revisions to costs and income. These changes are recognized in the period in which they are determined. Claims for additional contract revenue are recognized when realization is probable and the amount can be reasonably estimated.

Contracts receivable include billings on completed and partially completed contracts. The current asset, "Costs and estimated earnings in excess of billings on uncompleted contracts," represents recognized revenue in excess of amounts billed. The current liability, "Billings in excess of costs

Revenue Recognition (Continued)

and estimated earnings on uncompleted contracts," represents billings in excess of revenues recognized.

Contracts Receivable and Allowance for Doubtful Accounts

Aerex's contracts receivable are based on contracted prices. Credit is extended to all qualified customers under various payment terms. Aerex provides for estimated losses on uncollectible contracts receivable based upon historical data and management's evaluation of the contracts receivable balances. No such allowance was deemed to be necessary as of December 31, 2015.

Inventories

Inventory, consisting of various construction supplies and materials, is stated at the lower of cost or market with cost being determined by using the first-in, first out (FIFO) method.

Property and Equipment

Property and equipment are carried at cost. Depreciation is calculated using the straight-line method for financial reporting purposes over the estimated useful lives of the assets ranging from 3 to 40 years. The carrying amount of long-lived assets is evaluated periodically to determine if adjustment to the useful life or to the undepreciated balance is warranted. Depreciation expense for the year ended December 31, 2015 was \$160,641.

The cost of assets sold or otherwise disposed of and the related accumulated depreciation thereon are removed from the accounts and the resulting gain or loss is reflected in net income. Expenditures for major renewals and improvements that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

Long-lived assets held and used by Aerex are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In the event that facts and circumstances indicate that the cost of any long-lived assets may be impaired, an evaluation of recoverability would be performed.

NOTES TO THE FINANCIAL STATEMENTS

Year Ended December 31, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Loan Origination Fees

Loan origination fees associated with Aerex's long-term debt are recorded at a cost of \$36,007 at December 31, 2015. The fees related to the January 2013 term debt refinance are currently being amortized over a period of 15 years using the straight-line method. Amortization expense was \$2,401 for the year ended December 31, 2015. The annual amortization expense related to these fees over the remaining life of the term loan is \$2,401.

Concentrations

As of December 31, 2015 one customer accounted for 41% of trade receivables. This customer also accounted for 76% contract revenues for the year ended December 31, 2015. For the year ended December 31, 2015, one vendor accounted for 73% of material purchases. No amounts were payable to this vendor as of December 31, 2015.

Income Taxes

Aerex has elected to be taxed under the provisions of Subchapter S of the Internal Revenue Code. Under those provisions, Aerex does not pay federal and state corporate income taxes on its taxable income. Instead, the earnings and losses are includable in the personal income tax returns of the stockholder and taxed at individual marginal tax rates. Accordingly, no provision or liability for federal and state income taxes has been included in these financial statements.

ASC 740 requires companies to evaluate and account, if necessary, for "uncertain positions" taken on open income tax returns and positions expected to be taken in a soon to be filed tax return. In accordance with this guidance, interest costs and related penalties would be calculated, if applicable, related to unrecognized tax benefits. As of December 31, 2015, no liability for unrecognized tax benefits was required to be recorded. The standard discusses the recognition threshold, methodology for financial statement recognition and guidance on de-recognition, classification, interest and penalties and disclosure. Aerex's income tax filings are subject to audit by various taxing authorities, which generally extend three years from the date of filing the income tax return. If applicable, any interest recorded would be included in interest expense and any penalties recorded would be included in income tax expense.

NOTES TO THE FINANCIAL STATEMENTS

Year Ended December 31, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

Subsequent events have been evaluated through April 28, 2016, which is the date the financial statements were available to be issued.

Fair Value

The fair value of financial instruments, including cash and cash equivalents, contracts receivable, accounts payable, and accrued expenses approximates the carrying values, principally because of the short maturity of those items. The fair value of long-term debt approximates the carrying value, principally because of the maturity dates of the long-term debt and the current terms applicable to each item. There were no changes in the methods or assumptions used in the valuation techniques by Aerex during the year ended December 31, 2015.

Upon the mutual consent of the lessor or lessee, this lease may be terminated by either party with sixty days written notice.

Aerex has been given the right to use the lease facility "rent free" for the period from July 1, 2011 through June 30, 2013, with an option to make advance payments on the future rent amounts that will become due during the period of July 1, 2013 and ending on June 30, 2016. Rent expense is recognized by Aerex on a straight-line basis over the five year term of the lease plus the applicable sales tax, irrespective of the "rent free" provision that applies to the first two years of the agreement. Rent expense recognized was \$65,178 for the year ended December 31, 2015.

The twenty-four month extension for this office space referenced above was signed in March of 2016, effectively extending this lease through June of 2018.

NOTE 8 - MISCELLANEOUS INCOME
