**CONSOLIDATED WATER CO. LTD.
REPORTS SECOND QUARTER OPERATING RESULTS
COMPANY WINS TENDER FOR MEXICO PROJECT**

GEORGE TOWN, Grand Cayman, Cayman Islands (August 9, 2016) -- Consolidated Water Co. Ltd. (NASDAQ Global Select Market: "CWCO") ("Consolidated Water" or "the Company"), which develops and operates seawater desalination plants and water distribution systems in areas of the world where naturally occurring supplies of potable water are scarce or nonexistent, today reported its operating results for the second quarter of 2016. The Company will host an investor conference call on Wednesday, August 10, 2016 at 11:00 a.m. EDT (see details below) to discuss its operating results and other topics of interest.

Second Quarter Operating Results

Net income attributable to Consolidated Water Co. Ltd. stockholders for the quarter ended June 30, 2016 was \$2,204,333 (\$0.15 per share on a fully-diluted basis), as compared to \$2,228,100 (\$0.15 per share on a fully-diluted basis) for the quarter ended June 30, 2015.

Revenues generated by retail water operations were \$6,292,833 in 2016 as compared to \$6,152,185 in 2015. Although the volume of water sold by the retail segment increased by approximately 10% from 2015 to 2016, retail revenues increased by only approximately 2% in 2016 due to (i) lower energy costs, which reduced the energy component of the rates charged to the Cayman retail customers by \$172,437 from 2015; and (ii) the annual first quarter adjustment of base rates under the Company's retail license, which were lowered in 2016 by 4.4% due to downward movement in the price indices used as the basis for such rate adjustments.

Bulk segment revenues were \$7,441,061 and \$8,187,273 for 2016 and 2015, respectively. The decrease in bulk revenues from 2015 to 2016 is attributable to the Company's Bahamas and Cayman operations, which generated approximately \$587,000 and \$210,000 less in revenues, respectively, in 2016 than in 2015 due to a significant decrease in the prices of diesel fuel and electricity from 2015 to 2016, which reduced the energy component of bulk water rates.

Services segment revenues were \$1,664,741 and \$146,211 for 2016 and 2015, respectively. Services revenues increased in 2016 primarily as a result of the addition of the revenues of Aerex Industries, Inc. ("Aerex") after the acquisition of 51% of this company on February 11, 2016.

Consolidated gross profit increased to \$6,592,379 (43% of total revenues) in 2016, versus \$5,965,294 (41% of total revenues) in 2015. Gross profit for retail revenues was \$3,607,517 (57% of retail revenues) and \$3,494,487 (57% of retail revenues) in 2016 and 2015, respectively. Gross profit on bulk revenues was \$2,627,800 (35% of bulk revenues), compared with \$2,537,344 (31% of bulk revenues) for the prior year period. The services segment generated gross profit of \$357,062 in 2016, while incurring a negative gross profit of (\$66,537) in 2015.

Consolidated general and administrative expenses ("G&A") increased to approximately \$4.9 million in 2016 from approximately \$3.7 million in 2015 due to the addition of the G&A expenses of Aerex and an increase in the project development expenses incurred by the Company's Mexican subsidiary, N.S.C. Agua S.A. de C.V. ("NSC").

Other income (expense), net for 2016 was \$418,837 as compared to \$28,195 for 2015. The fluctuation in this net component of results of operations reflects (i) the impairment charge recorded for the Company's equity investment in Ocean Conversion (BVI) Ltd. ("OC-BVI") in 2015 of \$275,000, as no impairment charge was recorded for this investment in 2016; and (ii) foreign currency gains recorded for PT Consolidated Water Bali ("CW-Bali") in 2016 as compared to foreign currency losses recorded for this subsidiary in 2015.

Management Comments

“Our gross profit, both in dollars and as a percentage of revenues increased for all three of our business segments this past quarter compared to the second quarter of 2015, resulting in a total gross profit increase this past quarter of approximately \$627,000, or 11%, compared to the same period of 2015,” stated CEO Rick McTaggart.

“Our newly-acquired Aerex subsidiary contributed approximately \$1.3 million in revenues to our services segment this past quarter. Aerex is an original equipment manufacturer of a wide range of products and services applicable to the water industry, and consequently its revenues and earnings are dependent on the timing and size of purchase orders for these products and services. While Aerex’s financial performance during the four months following its acquisition has not been consistent on average with its 2015 financial performance, we remain extremely positive about the contribution that Aerex will make to our Company.

We were very pleased to announce in mid-June that our consortium was declared the winner of the bidding process for the 100 million gallon per day seawater desalination plant in Rosarito, Mexico. We are currently in the process of finalizing a public-private partnership agreement with the State of Baja California, Mexico which we expect to execute in the coming weeks.

We believe that our negotiations with the Cayman Islands Water Authority for a new water utility license in Grand Cayman are nearing an end, and although a few important differences have yet to be resolved, we remain hopeful that these negotiations will be concluded before the end of this year,” concluded Mr. McTaggart.

Six Months Operating Results

Net income attributable to Consolidated Water Co. Ltd. stockholders for 2016 was \$4,258,974 (\$0.29 per share on a fully-diluted basis), as compared to \$4,149,361 (\$0.28 per share on a fully-diluted basis) for 2015.

Total revenues for 2016 and 2015 were \$29,433,407 and \$29,151,781, respectively. Higher revenues for the services segment in 2016 served to offset a decline in bulk segment revenues as retail revenue remained relatively consistent in 2016 from 2015. Gross profit for 2016 was \$12,769,410 or 43% of total revenues, as compared to \$12,113,596 or 42% of total revenues, for 2015. Gross profit for the retail and services segments increased while the bulk segment gross profit declined in 2016 from 2015.

G&A expenses on a consolidated basis were \$9,396,760 and \$7,554,540 for 2016 and 2015, respectively. The increase in consolidated G&A expenses from 2015 to 2016 is primarily attributable to the addition of approximately \$1,022,000 in expenses for Aerex after the Company’s acquisition of a 51% ownership interest in this company in February 2016 and an increase of approximately \$629,000 in the project development expenses incurred by the Company’s Mexican subsidiary, NSC.

Other income (expense), net for 2016 was \$808,394 as compared to (\$191,362) for 2015. The fluctuation in this net component of results of operations reflects (i) a decrease in the impairment charge recorded for the Company’s equity investment in OC-BVI in 2016 as compared to 2015 of \$535,000; and (ii) foreign currency gains recorded for CW-Bali in 2016 of approximately \$174,000 as compared to foreign currency losses recorded for this subsidiary in 2015 of approximately (\$233,000).

Cash Dividends

On July 31, 2016, the Company paid a quarterly cash dividend of \$0.075 per share to shareholders of record at the close of business on July 1, 2016. The Company has paid cash dividends to shareholders since 1985.

Investor Conference Call
