Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 8.01. Other Events.

As previously reported, Consolidated Water Co. Ltd. (the “Company”), through its wholly owned subsidiary, Ocean Conversion (Cayman) Limited (“OC-Cayman”), sells water to the Water Authority-Cayman (“WAC”), a government-owned utility and regulatory agency, produced at three reverse osmosis seawater conversion plants in Grand Cayman owned by the WAC, but designed, built and operated by OC-Cayman: the North Sound, Red Gate and North Side Water Works plants. The current operating agreements for the North Sound, Red Gate and North Side Water Works plants are set to expire in February 2019, February 2019, and June 2019, respectively. In response to a WAC-initiated public bidding process for a new operating agreement encompassing both the North Sound and Red Gate plants, the Company submitted a bid for the new agreement. The Company generated total revenues of approximately \$3.7 million and \$7.2 million from these three plants during the six months ended June 30, 2018 and the year ended December 31, 2017, respectively, in each case inclusive of the pass-through energy component.

On August 21, 2018, the WAC accepted OC-Cayman’s bid for the new agreement, and the WAC and OC-Cayman entered into a new five-year contract commencing on February 1, 2019 for the operation of the North Sound and Red Gate plants. The per gallon price for the water supplied under the new agreement, excluding the pass-through energy component, is approximately 31% less than the price in effect as of June 30, 2018 and December 31, 2017. The remaining terms of the new agreement are substantially consistent with those of the prior North Sound and Red Gate water supply agreements, except that under the new agreement the WAC will pay the energy costs for the operation of these plants directly to the utility company rather than reimburse OC-Cayman for these costs.
